MJ Atelier is an artist studio whose skills often seem a rarity in the modern age. They are trained to the highest level in figurative and Old Masters painting, and have dedicated over thirty years to learning the techniques of our artist forefathers. Using skills akin to those used by Renaissance artists, MJ Atelier composes classical scenes to create illusions of space and depth. In the true innovative spirit of the Renaissance, the studio is unique in their progressive techniques, having researched and developed an innovative, patented technique for sculptural plaster, which has become a trademark of their work. The murals MJ Atelier creates reflect their love of travelling to all corners of the world, and paired with their modern eyes, these works offer a fresh and contemporary perspective on classical murals, whether in the form of immersive wall-to-wall murals or more focussed verre églomisé scenes of the highest museum quality
